The workbook

Your first 60 days to your first client

One or two tasks a day, with questions you answer as you go.

Samuel Adebayo
VIDEO EDITOR AND COACH

START HERE

How this workbook works

The book shows you the pathway. This workbook walks you down it, one day at a time, from choosing your niche to reaching out to the clients you want.

- **One day at a time, in order.** Each day has one or two tasks and says how long they take.
- **Missed a day? Don't skip it.** Pick up where you stopped. It's sixty steps, not sixty dates.
- **Every day points to the book** chapter it comes from. Read it first if you haven't.
- **Post every day.** Each day ends with a post idea. Showing your work is your leverage.
- **Every seven days, a check-in.** Your posts, your numbers, what slipped.

TYPING YOUR ANSWERS

Tap any box and type. Open this file in **Adobe Acrobat Reader** (free on Android and iPhone), Xodo, or Google Drive on Android. Save after each day. If a box won't let you type, your app is only showing the file: open it in Acrobat Reader instead.

IN THE COMMUNITY

If you're in the Called to Edit Community, share each day's work there. I'll give you feedback, correct you and guide you as you go.

What you'll need

- **The book**, *Called to Edit: How to Build a Career as a Video Editor and Get Paid*. Every day points to a chapter.
- **Your editing tool**: phone or laptop, and the software you already use.
- **One social platform** you'll post on every day.
- **Notion or a spreadsheet** for your dream client list (Day 36).
- **Free accounts** on Canva, Loom and a booking-link tool such as Calendly or Cal.com (Days 32, 45 and 47).

BEFORE DAY 1

PHASE 1 · DAYS 1–7

Set your direction

Pick who you serve, say it in one sentence, know what your tools can do, and get visible.

“If you are targeting everyone, you have no one.”

DAY 1

PHASE 1 · 30 MIN

Know where you're starting

BOOK: CHAPTERS 1–3

Editing is a service, not just a skill. Before you learn anything, be honest about where you're starting: your tools, your time and why you want this. Nobody sees these answers unless you share them.

Do this

1. Read Chapters 1 to 3 of the book if you haven't.
2. Answer every question below. Short, honest answers beat long ones.

NOTES

POST IDEA FOR TODAY

Authentic: “Day 1 of 60. I'm becoming a paid video editor. Here's where I'm starting.”

DAY 1 Know where you're starting

Why do you want to get paid as a video editor?

What do you edit on today: phone, laptop or both? Which software?

How many hours a day can you give this for the next 60 days, and which hours?

Be realistic. Two focused hours every day beat eight hours once a week.

What has stopped you before?

☐ **Day 1 done**

Share it in the Community

DAY 2

PHASE 1 · 45 MIN

Find out who pays

BOOK: CHAPTER 4

You need to niche into something before you even pick your skill. In any niche, business people pay more, because they already understand marketing. Followers are not money: ask what a creator sells, not how many people follow them.

Do this

1. Write down three kinds of video you watch most and enjoy.
2. For each one, find three creators who make it, and check: do they sell something? A course, a product, a service?
3. Run each option through the four questions from Chapter 4.

NOTES

POST IDEA FOR TODAY

Authority: “3 kinds of creators who pay video editors well, and why.”

DAY 2 Find out who pays

Option 1: the niche, and what those creators sell

Option 2: the niche, and what those creators sell

Option 3: the niche, and what those creators sell

Which option passes all four? It excites you, it makes money, they value marketing, your tools can handle it.

☐ **Day 2 done**

Share it in the Community

DAY 3

PHASE 1 · 30 MIN

Choose one niche and one format

BOOK: CHAPTER 4

If you are targeting everyone, you have no one. Pick one niche, one format and one platform. Platforms edit differently: a YouTube talking head and an Instagram talking head are not the same thing.

Do this

1. Choose one niche from yesterday.
2. Choose long form or short form. Long form pays more per video; short form sells in volume, and ads are the best-paying short form.
3. Name the platform your clients post on.
4. Write the exact kind of video you will edit, for example “long-form talking-head business videos for YouTube”.

NOTES

POST IDEA FOR TODAY

Authentic: “I've chosen my niche. From today I edit ___ for ___.”

DAY 3

Choose one niche and one format

My niche

Long form or short form, and why

The platform my clients post on

The exact kind of video I will edit

☐ **Day 3 done**

Share it in the Community

DAY 4

PHASE 1 · 45 MIN

Say your offer in one sentence

BOOK: CHAPTER 4

Stop saying “I'm a video editor.” There are too many kinds. Say exactly what you are, then turn it into an offer. There must be a promise.

MY EXAMPLE

“I help business creators get 10,000 views in 3 months through video editing and visually engaging content.”

Do this

1. Answer the four questions below.
2. Write your offer sentence: I help **who** get **what result** in **how long** through **how**.
3. Read it out loud. Then make it more specific, twice.

NOTES

POST IDEA FOR TODAY

Sales: put your offer sentence in a post. “This is what I do.”

DAY 4

Say your offer in one sentence

What editing service do I offer?

To whom: the person I would love to work with

How I will package and sell it, for example 5 videos a month

My offer sentence, first version

My offer sentence, sharper

Who, exactly? Which result? How long? Always make sure you are specific.

☐ **Day 4 done**

Share it in the Community

DAY 5

PHASE 1 · 45 MIN

Know your tools and your costs

BOOK: CHAPTER 5

Your niche and your hardware pick your software. If your tools can't handle a kind of video, don't chase it yet. And whatever you pay for is your capital: once you see it that way, you think “I need to start making profit”, and that pushes you to pitch.

Do this

1. Write down your device and what it can handle.
2. Cross out every kind of video your tools can't do yet. You won't sell those for now.
3. Add up what editing costs you each month: data, power, software, storage.

NOTES

POST IDEA FOR TODAY

Authentic: a photo of your setup. “This is what I edit on. Day 5.”

DAY 5 Know your tools and your costs

- [ ] I am not using cracked software. My client work depends on it.

My device and its specs (RAM, storage), or my phone model

My software, and whether it's free or paid

Videos my tools can't handle yet, so I won't sell them

What editing costs me each month: data, power, software, storage, and the total

The first upgrade I'll pay for from my first earnings, and what it lets me sell

- [ ] **Day 5 done**

Share it in the Community

DAY 6

PHASE 1 · 45 MIN

Pick your platform and lock in your feed

BOOK: CHAPTER 8

If you want to build something around a niche, surround yourself with that niche. For your first month, lock in: make all your social media about editing, especially your niche. Pick one platform and focus on it. Twitter (X) and LinkedIn are the best for beginners: agencies and clients search there.

Do this

1. Pick one platform. Two only if you have the capacity.
2. Search “video editor” and follow every good editor you find. Aim for 50.
3. Follow 20 creators in your niche: the people you want to edit for.
4. Mute what isn't editing, for now.

NOTES

POST IDEA FOR TODAY

Authentic: “Locking in for 60 days. Everything on this page is about editing now.”

DAY 6 Pick your platform and lock in your feed

- [ ] I followed 50 editors
- [ ] I followed 20 creators in my niche

My one platform, and why

Three editors in my niche whose work I'll study

- [ ] **Day 6 done**

Share it in the Community

DAY 7

PHASE 1 · 60 MIN

Build your profile

BOOK: CHAPTER 8

A lot of us hide ourselves. Show your face. When people think of your name, they should think of what you do. Announce it and be unashamed. Fix what you can today; some points wait until you have work to show.

Do this

1. Go through the seven points below on your platform.
2. Write your bio from your offer sentence (Day 4).
3. Post your first announcement.

NOTES

POST IDEA FOR TODAY

Sales: “I'm a ___ video editor. I help ___ get ___. Here's my journey, starting today.”

DAY 7 Build your profile

- [ ] 1. Your face: a clear photo
- [ ] 2. Name and what you do
- [ ] 3. Bio is your offer
- [ ] 4. Clients you've edited for (add as they come)
- [ ] 5. Portfolio link (you'll build it on Day 31)
- [ ] 6. Pinned post: your best edit (add on Day 14)
- [ ] 7. A good banner

My name line, for example “Samuel Adebayo · Long-form video editor”

My bio, written out

Be specific about the result, how fast and how.

- [ ] **Day 7 done**

Share it in the Community

PHASE 2 · DAYS 8–21

Learn on real videos

Build your learning list, learn one skill at a time on one video, and finish three full videos in your niche.

"Don't learn without implementation."

DAY 8

PHASE 2 · 45 MIN

Make your learning list

BOOK: CHAPTER 6

You don't choose what to learn. What you learn is chosen for you: by who you serve, who can pay you, your hardware and your software. Don't learn what you won't be able to pitch to your client. Everything looks exciting.

Do this

1. Ask any AI tool: “What are the skills I need to learn to edit *[your kind of video]* for *[your clients]* on *[platform]*?”
2. Copy the list it gives you.
3. Run it through your filters. Split it into “learn now” and “skip for now”.
4. Make sure the four foundations are on “learn now”: cutting, pacing, audio, captions.

NOTES

POST IDEA FOR TODAY

Authority: “The skills you actually need to edit ___ videos.” Share your list.

DAY 9

PHASE 2 | 2–3 HOURS

Master your software, part 1

BOOK: CHAPTER 6

Software and skill are two different things. Master the software first: the one you will actually use. Sit through the long beginner tutorials. You can't skip this part. The mistake is learning the software and thinking that's editing; that comes next.

Do this

1. Find one full beginner course for your software on YouTube, the 4 to 5 hour kind.
2. Watch with the software open. Pause, copy every step, repeat.
3. Get through the first half today.

NOTES

POST IDEA FOR TODAY

Authentic: a screenshot of your software. “Day 9. Learning ___ properly.”

DAY 10

PHASE 2 | 2–3 HOURS

Master your software, part 2

BOOK: CHAPTER 6

Finish the course. Make tutorials your entertainment for now: there was a time I opened YouTube and watched tutorials for fun.

Do this

1. Finish the second half of the course.
2. Write down the shortcuts you'll use every day, and use them until you don't need the list.

NOTES

POST IDEA FOR TODAY

Authority: “5 shortcuts in ___ that save me hours.”

DAY 11

PHASE 2 · 2 HOURS

Pick your practice video and cut it

BOOK: CHAPTER 6

Learn one skill from one tutorial, then use it straight away on one practice video. Learn cutting, cut that video. Then add every next skill to the same video. When the list is done, you have a finished video and skills you can sell.

MY DEFINITION OF EDITING

"Editing is cutting out what is not needed from the raw idea and presenting it in a way the viewer can get it."

Do this

1. Get raw footage close to your niche: a raw video on YouTube (skip the biggest creators, their videos are already over-edited), or record a talking head of yourself on your phone.
2. Watch one tutorial on cutting for your kind of video.
3. Cut the whole video. Remove everything that isn't needed.

DAY 12

PHASE 2 · 2 HOURS

Pacing and audio

BOOK: CHAPTER 6

Same video, next skills. The voice helps the viewer follow; sound effects carry feeling. What viewers hear and see must match.

Do this

1. Watch one tutorial on pacing for your kind of video. Apply it.
2. Watch one tutorial on audio: cleaning the voice, levels, music, sound effects. Apply it.
3. Watch the whole video back with headphones.

NOTES

PHASE 2 | 2 HOURS

Captions and typography

BOOK: CHAPTER 6

Captions are one of the four foundations, especially on social media. Learn them the same way: one tutorial, then straight onto the same video.

Do this

1. Watch one tutorial on captions for your platform. Apply it.
2. Watch one on simple typography or titles, if your niche uses it. Apply it.

NOTES

POST IDEA FOR TODAY

Authentic: “Day 13. Captions are harder than they look.”

☐ **Day 13 done**

DAY 14

PHASE 2 | 2–3 HOURS

Finish full video 1

BOOK: CHAPTER 6

Edit for the goal, not to look edited. Every cut, effect, caption and piece of B-roll has to help the viewer understand or feel something. Yes to either: keep it. No to both: cut it. And whenever the speaker says something you can show, show it.

Do this

1. Add the rest of your “learn now” list to the same video: B-roll, sound design, whatever your niche needs.
2. Run the function test on every element.
3. Export. Watch it once as a viewer, not as the editor.
4. Pin it on your profile.

NOTES

POST IDEA FOR TODAY

Sales: post the video. “My latest edit. I edit ___ for ___.”

Find an edit to recreate

BOOK: CHAPTER 6

Recreating edits in your niche is one of the fastest ways to learn, and I did it a lot. You're copying what someone already did professionally, so that one day you become like that person.

Do this

1. Find an edit you love in your niche, for example a short form someone cut from a podcast.
2. Find the raw footage it was cut from and download it.
3. Study the edit: write down what it does, second by second if you can.

BOOK: CHAPTER 6

When you hit something you can't do, an animation, an effect, the sound design, search YouTube for that one thing, learn it, then put it in. There's a YouTube tutorial for everything you want to do. It's practice, not portfolio.

Do this

1. Copy the same edit, as close as you can.
2. Each time you get stuck, learn that one thing and come back.
3. Post it side by side with the original.

Full video 2: plan for the goal

BOOK: CHAPTER 6

Every video has a goal. A business video's goal is to turn viewers into clients. A client will choose an editor whose videos produce results over one doing flashy edits that don't perform.

Do this

1. Get new raw footage in your niche.
2. Answer the three questions below before you touch the timeline.
3. Start the edit: cut and pace.

Full video 2: finish it

BOOK: CHAPTER 6

Most people wait too long because they never finish a whole project. They learn nuggets and styles, not full projects. Finish this one, start to end.

Do this

1. Audio, captions, B-roll, everything your niche needs.
2. Function test. Show, don't tell.

BOOK: CHAPTER 7

There's no fixed time before you're ready. When you can finish a full video from beginning to end, the kind you want to be paid for, you're good enough to charge. Not one: three.

Do this

1. Choose footage that's as close as possible to what your dream client posts.

Review your three videos

BOOK: CHAPTERS 6–7

Put your three videos next to a professional edit in your niche. Be honest about the gap. Then share them and ask for feedback: other editors will tell you what you can't see yet.

Do this

1. Watch a top edit in your niche, then each of your three videos.
2. Write down the gap.
3. Share your best one with other editors or in the Community and ask for critique.

Write your warm list

BOOK: CHAPTERS 7 AND 9

Real projects teach you fastest because of pressure. Start with warm outreach: people who already know you. It converts the fastest because they already know and trust you. My mentor, my first client, was warm.

Do this

1. List 15 people: friends who own a business, family, colleagues making content, people in your DMs and contacts, small businesses near you, events coming up, and editors who are busy.
2. Pick the three most likely to say yes.

Set the scope up front: a time frame or a number of videos. Never “free for a year”. Don't tell them you're learning. Tell them you're building your portfolio. With a scope set, when it ends they know you either leave or they pay you.

SAY IT LIKE THIS

“Let me do five videos for you, for free.”

Do this

1. Send a scoped offer to your first three.
2. Ask anyone you know: “I'm a video editor. Do you know anyone who needs my service?”
3. Write who you messaged below.

Free help is the best way to start, but still put your work out there as a paid service. If someone sees your videos and asks “How much do you charge?”, don't say “I'm not ready.”

Do this

1. Send three more scoped offers from your warm list.
2. If there's an event near you, offer to capture it, edit it and show them so they can use it.

PHASE 3 · 45 MIN

Brief your first real project

BOOK: CHAPTERS 6 AND 10

Ask questions before you edit. Clients see you know what you're doing, and you learn the goal of the video. If no one has said yes yet, keep going: follow up, message three more, and record a talking head of yourself to edit for your own page.

Do this

1. Ask your client the questions below. Write their answers.
2. Agree the deadline and the number of revisions.

DAY 26

PHASE 3 | 2–3 HOURS

Edit the real project

BOOK: CHAPTER 7

Your practice video has no deadline; nothing is at stake. A real project is posted tomorrow. You try your best not to make mistakes, so it converts and gets views. That pressure is the lesson.

Do this

1. Edit for the goal from yesterday's brief.
2. Send a short update to the client so they know you're on it.

NOTES

POST IDEA FOR TODAY

Authentic: a time-lapse or screenshot of you working. Document your day.

DAY 27

PHASE 3 | 1–2 HOURS

Deliver and take feedback

BOOK: CHAPTER 7

Deliver on time. Clients are tired of editors who can do flashy edits but aren't reliable and miss deadlines. Reliability is what they buy.

Do this

1. Deliver the video by the deadline.
2. Take their feedback calmly. Make the revisions you agreed.

NOTES

Document the result

BOOK: CHAPTER 11

Document the result for every client, for example the views their videos got. Keep screenshots. Clients love to work with people who are already experienced and have worked with others.

Do this

1. Ask the client if you can post the work.
2. Screenshot any results: views, comments, sales they mention.
3. Comment on five editors' posts at your level today. Build relationships.

NOTES

Keep the scope going

BOOK: CHAPTER 7

Do the next video in the scope, or start a second free project for someone new. Four or five free projects for one person is the limit; after that, move to paid.

Do this

1. Edit the next video in the scope.
2. Post a behind-the-scenes clip of the work.

Network with editors

BOOK: CHAPTER 11

Other editors are very important to your growth. When I started on Twitter, I commented, liked and talked with them. We looked at each other's edits and corrected each other. Some became friends who sent me client projects. Social media is meant to be social.

Do this

1. Engage five editors at your level or smaller: comment, then DM.
2. Swap critiques with one of them.
3. Join an editor challenge if you see one, and cheer others on.

Build your portfolio site

BOOK: CHAPTER 8

A new client can't scroll through all your posts. A shared drive folder is friction: click, wait, click. A simple website is the best portfolio you can have. It doesn't need to be flashy. What the client wants to see is your videos.

Do this

1. Upload your edits to YouTube as unlisted videos. Copy the links.
2. Paste them into an AI: “These are the videos I edited. Use these videos to create a portfolio that I can link in my bio.”
3. Build it on Framer, Canva Websites or Carrd.
4. Put in your top 4 and your other 4, eight at most. Only have 3? Put the 3. Add before and afters, testimonials, results and a short about you.

BOOK: CHAPTER 8

Pick brand colours and stick to them. Mine was green: in all my old posts, I always used green. If you don't understand branding yet, don't disturb yourself too much. It comes gradually.

Do this

1. Choose one or two brand colours.
2. Make a banner in Canva that says what you do.
3. Go back through the seven profile points from Day 7 and finish them.

BOOK: CHAPTER 11

Some of us have worked with people and never asked them for a testimonial. Go and ask. Written works; video is very powerful.

Do this

1. Ask everyone you've edited for so far.
2. Make it easy: ask them to say what you did and what changed for them.
3. Add it to your portfolio.

BOOK: CHAPTER 7

Free, then a token, then paid. If they're enjoying your work, tell them you'd love to be paid a token for it. Even a small amount pays for what learning costs: data and electricity. Don't stay free too long.

Do this

1. Pick the person who has had the most work from you.
2. Tell them you've enjoyed working with them, and ask whether they could pay a token for the next videos.
3. If they can't, finish the scope you agreed, then move on.

My first case study came from free work: about 1,000 views on my mentor's channel before me, about 4,000 after my edits. It's not much for YouTube, but it went into my portfolio and my case studies.

Do this

1. Pick your best result so far.
2. Write it as before, what you did, after.

PHASE 4 · DAYS 36–60

Go get your first client

Build your dream client list, warm them up, reach out every day, price with confidence and close on a call.

“Getting clients is a lot of hard work. That's the truth.”

DAY 36

PHASE 4 · 60 MIN

Start your dream client list

BOOK: CHAPTER 9

The dream client list is the most important thing for every video editor. You are gathering leads here, not reaching out yet. Every name has three signs: in your niche, makes money, needs an editor.

Do this

1. Make a table in Notion or a spreadsheet with these columns: name, channel or handle, email, other platforms, content, followers, example videos, follow-ups 1 to 4.
2. Search where your client posts: for YouTube clients, search YouTube for creators in your niche. On Instagram, go smaller: 1,000 to 20,000 followers is the sweet spot.
3. Scroll past the many who already have great editors. Add 10 names.

Grow the list to 20

BOOK: CHAPTER 9

Aim for 20 to 50 names. Mine was 100: my dream 100. Keep adding every day until you land your first dream clients. Agencies are clients too: most post on Twitter and LinkedIn that they need an editor.

Do this

1. Add 10 more names.
2. Find each one's email (on YouTube, many list one on their About page) and their other platforms.
3. Save two or three example videos per name to use as references.

NOTES

Start warming them up

BOOK: CHAPTER 9

By the time you DM, you're not a stranger. Turn on notifications for the creator. Be the first to comment, and say something genuinely good about what they teach. After four or five posts, they notice you, they check your page, and they see you're an editor.

Do this

1. Turn on notifications for your top 10.
2. Leave a genuine, specific comment on the latest post of each.
3. From today, comment on them every day. It's in your daily rhythm.

NOTES

DAY 39

PHASE 4 | 60 MIN

Make your rate card

BOOK: CHAPTER 10

Price per video, never per minute, never like a salary. A one-minute video can have as much work as a 20-minute one. A rate card shows your price tiers by what's in the video, so the client sees what changes the price.

Do this

1. Write three tiers by what's in the video.
2. Put your own price on each, in the currency your clients pay in.
3. What sets your number: your skill level, how confident you are that you can deliver, and the kind of client.

NOTES

POST IDEA FOR TODAY

Authentic: “Made my first rate card today.”

DAY 39

Make your rate card

Tier 1: what's in it, and the price

Tier 2: what's in it, and the price

Tier 3: what's in it, and the price

Why these numbers

For scale: beginners learning on simple short-form work often start around USD 5–10 a video; good international clients paid around USD 20–30 for the short form I've seen. Your market may differ.

DAY 40

PHASE 4 | 60 MIN

Get paid, and get paid safely

BOOK: CHAPTER 10

The scam is simple: you deliver the video and never get paid. Take about 30% upfront before you start, write a contract and have them sign it. And research how money reaches you: what works depends on where you live and where your client is.

Do this

1. Find out how clients abroad can pay you in your country. Ask people near you who already earn online.
2. Open the account you'll use.
3. Write your agreement terms below.

NOTES

Send your first cold DMs

BOOK: CHAPTER 9

Most cold messages fail because they're too cold: you just want their money and show no interest in what they do. Open with a question, not a pitch. Steer to a problem. Then pitch, with value first. In DMs, send voice notes: people want to hear real human beings.

Do this

1. Pick three creators you've warmed up with four or five comments.
2. Open each with a genuine question about their video.
3. Log each message in your list.

BOOK: CHAPTER 9

An email isn't a conversation, so prove you watched their video. Not “I saw your videos” but “your last video about…”. Better still, mention something from 10 minutes in. The more research you do on the person, the better the replies.

Do this

1. Write three emails to three names on your list.
2. Name the video in the subject line.

Do this

1. Pick one creator from your list.

Plan your packages

BOOK: CHAPTER 10

Stop collecting single projects. It's easier to sell a full package than one video after which they have to come back to you. Packages need a retainer client: someone who already posts consistently. Upsell after you land the client, not before.

Do this

1. Design one package: how many videos a month, and the price.
2. Write the upsells you could offer later: thumbnails, scripting, ideation only if you really know how.

PHASE 4 · 60 MIN

Read your numbers

BOOK: CHAPTER 9

Look at what you've actually done. Numbers don't lie, and they show you what's working.

Do this

1. Count everything in your list since Day 36.
2. Find which channel got the most replies.

NOTES

POST IDEA FOR TODAY

Authentic: your honest numbers so far.

DAY 57

PHASE 4 · 2 HOURS

Double down

BOOK: CHAPTER 9

Do more of what got replies. If voice notes worked, send more voice notes. If value-first edits worked, make another.

Today's rhythm

PHASE 4 · 60 MIN

Refresh your proof

BOOK: CHAPTERS 8 AND 11

Replace practice pieces with real projects as they come. Every new result, screenshot and testimonial makes the next client easier.

Do this

1. Add any new work, results and testimonials to your portfolio.
2. Check your profile against the seven points again.
3. Do your daily rhythm.

NOTES

POST IDEA FOR TODAY

Sales: “Updated portfolio. Taking on clients for next month.”

DAY 60

PHASE 4 · 60 MIN

Look back, then plan the next 60

BOOK: CHAPTER 12

Sixty days doesn't guarantee a client. Nothing does. But don't rely on one means: do it all consistently for one, two, three months, for many clients, and you give yourself the best chance there is. If you've landed your first client: take 30% upfront, sign the agreement, deliver on time and document the result.

Do this

1. Read your Day 1 answers.
2. Answer the questions below.
3. Plan your next 60 days.

NOTES

POST IDEA FOR TODAY

Authentic: “60 days ago I started. This is what happened.”
